The suspect attempted to rob a man in Denver's Highland neighborhood just before 3:00 a.m. Sunday. The robber tried to break into the man's home, but was apparently surprised by a handgun in the man's

hand. He pulled out his own handgun and fired shots at the suspect. The suspect was hit, but not seriously wounded. He was taken to the hospital. Denver police say they are investigating the suspect's intentions. Neighbors who heard the shots say they are "surprised it happened that close" to their homes. "I don't think a handgun has been used in

this neighborhood in a long time. It's a little bit scary. So for me to hear the gunshots right outside of my house at 3 in the morning is really surprising." Police say it is not clear if the suspect was trying to steal the man's gun or the man had been attempting to shoot the suspect. Neighbors are also concerned about the neighborhood since there

is a new home going up nearby and people are building big homes with big backyards. "We have our peace. And we have our family and we are all very happy together, but with these houses popping up, I don't know what is going to happen." Police say the suspect's name has not been released. He is expected to survive. Anyone with information is asked to call police
