Motion Capture technology captures the exact movements of the real-life players and translates them into an enhanced FIFA experience where players are more visible and in-depth animations are added. It even allows players to be placed into the action as they would be in the stadium. More players will display animations using detailed facial movements, suggesting how they would have reacted in the game situation. Players will also react to passing and shooting situations, just like in the real world. The all-new animation engine will support all animations for a complete squad of real-life players from head to toe. Players will be more accurate and will communicate better, whether they are on their feet or in position. The engine will also allow players to move their limbs and body to move their weapon or pass, while it is in play. New player injuries and injuries to team-mates will be captured more naturally. When a player picks up a knock, you will be able to see, hear and feel the exact moment it happened. Players will react to all forms of contact and the intensity of the collision will be represented realistically with injuries more authentic and graded on the pitch. Team-mates will react to and communicate the injury, and they will change their body position towards the injured player as the injury unfolds. The player will move their arms and legs, but you will also be able to see the injury and hear players like Hilario, Silva or Pogba shouting for help on the sidelines. Adidas Player The highly anticipated Real Madrid and Paris Saint-Germain kit "Adidas Player" will be revealed during the UEFA Champions League Final. A choice of four different jerseys featuring the club's iconic landmark, the UEFA Champions League logo, three different jersey inserts and backings, as well as the team crest will be available to purchase, both in store and online. The Adidas kit will be worn for the first time on May 24 at the UEFA Champions League Final between Tottenham Hotspur and Real Madrid. Fans can join the UEFA Champions League at the Real Madrid stadium using the new UEFA Club Season Ticket\*, which will be on sale starting March 24. For more information, visit [www.uefa.com/pl](http://www.uefa.com/pl). Highlights of the kits include: Three-Stripe collar with sleeves and trim The Club logo embroidered on the left chest Line pattern on the right of the chest Crest of the UEFA Champions League, surrounded by the

**Features Key:**

FIFA is the world's greatest football video game franchise. Every game lets you experience the thrill of competing against the world's best players. FIFA 18 will be released this October. Over 300 million registered players from over 190 countries around the world are already competing in FIFA tournaments. FIFA Origins Sega packed years of football action into the original FIFA, allowing you to play as the world's greatest teams and the world's greatest players. FIFA World Cup FIFA became the best-selling sports game of all time, making EA SPORTS the official FIFA of the FIFA World Cup. A new generation of FIFA footballers come to FIFA soccer as FIFA 19 launches on September 27th, 2018. FIFA 18 A year ago, the FIFA World Cup was on the brink of chaos. The top leagues had fallen into disarray, and countries across the globe were on the verge of mass unemployment as the world soccer disaster of the century began to unfold. Six months have passed and the carnage is finally over, but not before every single country on Earth faced the horrors of the 2018 World Cup. FIFA 19 Last week, EA SPORTS introduced to the world its first installment in the new FIFA series: FIFA 19. FIFA 19 will debut with its initial release on August 27, 2018 on PC and Xbox One. The Xbox One version will also be available on day one for EA Access members. FIFA Ultimate Team FIFA Ultimate Team, the all-time leader in in-game football fantasy, is the most dynamic and comprehensive way to develop, manage and play in the world of football. Over 10 years since the launch of FIFA 07, the game has evolved into the most innovative way to play and manage elite footballers in the world. FIFA 20 FIFA 20 is the latest in the popular football video game franchise, and returns to its roots with an all-new engine that delivers real-world player intelligence and unprecedented responsiveness. FIFA 20 is the latest in the popular football video game franchise, and returns to its roots with an all-new engine that delivers real-world player intelligence and unprecedented responsiveness. FIFA International Tournament EA SPORTS has launched FIFA International Tournament in a world-first partnership with Goldstar. Football has spread around the globe, and teams and players have adapted to survive and thrive in the varying climates and conditions of the Earth. F bc9d6d6daa

Possibly the most popular mode within the game, FIFA Ultimate Team allows you to build and manage your very own team from a vast array of real players that can be discovered around the world. Add them to your squad and make them your own. As you progress through the game you can swap in the most exclusive and valuable players from the game's collection and compete to earn FIFA Tokens, which you can exchange for successful and valuable players. CUSTOMISATION Optimized Player and Team Visuals - FIFA has evolved in a variety of ways, and yet every single factor has been designed for the game's improved visual quality. The new customization features help bring the world to life, and allow you to personalize the look of your players and teams just as FIFA fans would do in the real world. You can now choose the precise look of your Player, whether it be hair style, haircut, skin tone, or even beard style. The new visual options, combined with FIFA's new physics engine, place the world in your hands, providing you with the tools you need to adapt to your surroundings and give the game new life. Heart-Rated Match Experience - With the new engine that will provide its own unique match experience, there is a focus on pure entertainment, delivering a fuller sense of emotion during every gameplay moment. This new game engine is packed with dramatic events, unique in-game celebrations, and the ability to display more of your favorite chants, songs, and, of course, FIFA themes. Based on real emotional and physiological responses, players' body movements and reactions are tracked to provide a more interactive and emotionally engaging experience. World-Class Player Sensitivity - FIFA has always felt alive, thanks to its blend of real-world responsiveness and stunning authentic gameplay. FIFA 22 raises the bar, with player responsiveness that is as natural as it is intense. Hitting the ball feels responsive and natural in all situations. But the game is also built for class, with a rapid dribble system that allows you to spin past your opponents or break through before they even know what's happening. As they give chase, you'll feel like you're constantly on the defensive, but never too slow to make a play or too quick to lose the ball. The defenders are back, and they're better than ever. FIFA Ultimate Team - The new Ultimate Team mode offers a new emphasis on player creativity. It's more

**What's new:**

- FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
- In addition to hyper motion intelligence, FIFA 22 also gives each player new animations based on playing style, anatomy, and character models.
- A new “Play with a Rookie” experience, gives beginners a real introductory experience of FIFA 22 gameplay and tips and help to get started in Career mode.
- FIFA Ultimate Team Club of the Year is even bigger, with more bonus cards like stars and stellar names to collect than ever.
- Watch your moves as FIFA 22 introduces the new Head 2 Head series, where you and your team-mates challenge each other at any moment in any game mode. Head 2 Head matches will now feature AI opponents from all 32 nations who will try to take advantage of any indiscretions you may make. Watch your moves as FIFA 22 introduces the new Head 2 Head series, where you and your team-mates challenge each other at any moment in any game mode. Head 2 Head matches will now feature AI opponents from all 32 nations who will try to take advantage of any indiscretions you may make.

What is the ultimate goal in FIFA? To be the best. To be the best. To be the best. To give the best. There are many ways to get there. Players can build a strong and balanced football team, put that team out on the pitch and try to excel at both winning and the most important part - being enjoyable. And that's what we're all about. Win. Be enjoyable. Make this the best. "The most important part of any video game, aside from the actual quality of the graphics and the sound, is the gameplay. It needs to flow smoothly, allow the player to feel confident in his actions, and keep him engaged and interested with challenging game play." - Shigeru Miyamoto, creator of the Super Mario series That's us. That's the we who want to make you the best. We are The FIFA Group FEIaWe is The FIFA Group and our mission is to make the most authentic, accessible and enjoyable sports experience on the planet. Since 1994, our game engine continues to evolve alongside the sport, introducing new technologies, optimizing the team and gameplay, and pushing the team and player models to the outer limits of realism. Our mission is to bring you the most authentic and enjoyable sports experience on the planet. Since 1994, our game engine continues to evolve alongside the sport, introducing new technologies, optimizing the team and gameplay, and pushing the team and player models to the outer limits of realism. Team Because Team is so important to every type of player, we spent time honing the skills of every aspect of the game. From making high-definition passes to controlling yourself, becoming a complete player is essential. We've made the kick box and other skills areas more accessible for newcomers so they can enjoy the nuances of gameplay. And players of all levels can take advantage of the improved agility and movement controls to maximize their performance on the field. Player Many football fans will remember that when FIFA 09 was released, the roster was so full that some players would not be eligible. But it was a problem that was easily fixed by simply removing any unnecessary players. We went back to the drawing board and rebuilt the entire player model while making them more accurate and responsive to the ever-changing demands of the game. Our journey to the most authentic-feeling players in the business continues with the introduction of unique facial animations and an improved soft-body physics
