forgotten
numbers. • Fast
search. • cross
directory
integration: -
contacts from
directory - with e-
mail contacts -
with calendar
contacts - groups

- phone directory
with
appointments -
calendar directory
- phone directory
with text
messages • Data
is stored in a
secure server. •
The software uses

compression with
safe

decompression. •

The software has
an installer. • The

software used
images. •

Compressed. •

The software uses
interfaces

integrated with
other programs:
Windows
Explorer,
Windows Explorer
for notebooks. •
Fast access to
data. • Fast
directory
compression. •

Fast directory
recheck. • Fast
directory
synchronization. •
Fast directory
update (point-and-
click). • Fast
directory export.
• Fast directory
import. • Fast

directory
backup/restore. •
Fast directory
import. • Fast
directory to auto
backup on
shutdown. • Fast
directory to auto
backup on
startup. • Fast

directory to auto
backup on
network change.

- Fast directory to auto backup on mobile telephone activity.

What's New in the Power Phone Book Personal Edition?

The application has three aspects, each includes its own functions, which gives an opportunity to the user to make his

work easier:
Automatic phone
book
synchronization
with the main
database, in the
other words, the
user can
synchronize data
that is stored in

the application with the main database. The phone books edit and update on server. In the case of server database updates the application will inform about

the need to
synchronize with
the main
database. If there
is no Internet
connection, you
can update phone
book on PC with
the help of the
function

synchronization
with the main
database. Power
